The Company

Eurilait is the UK subsidiary of two French dairy co-operatives, Laita and Eurial Poitouaine. We are the UK's leading distributor of quality continental and speciality cheese and dairy products.

Eurilait is located within the rural village of Evercreech in the heart of Somerset, where it operates a 44,000 sq.ft cutting, packing and distribution facility supplying retail, wholesale and industrial markets throughout the UK and Ireland.

Products handled by Eurilait are produced in the 18 accredited creameries owned by Laita and Eurial throughout western France. Along with the cheese, butter, cream and crème fraiche supplied by Eurilait's parent companies, a vast array of cheeses are sourced throughout Europe to ensure a comprehensive range is available to all customers.

Eurilait is diligent in its responsibility to quality assurance and food safety. Eurilait's experience in dealing with factories throughout Europe ensures our manufacturing suppliers are assessed at all levels for their competence and ability to meet the high standards set by the UK market.

Eurilait's strength is its ability to meet customer requirements. Whether you need a specific format, case configuration or label, the production team at Evercreech have the ability to meet these demands.

At Eurilait we pride ourselves in our flexible, professional category led approach to supplying our customers.

Within this folder you will find a large selection of cheese, butter, cream and crème fraiche. However if you do not find the type of cheese or the format you require, then please let us know and we will endeavour to source or tailor make the product for you.
